## Detailed Action

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 10, drawn to a polymer based on polyvinyl esters, its uses and the process for making the same.

Group II, claim(s) 6-9, drawn to an initiator system and its uses.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a polymer based on polyvinyl esters in Group I and an initiator system of Group II do not share the special technical features because Group I is directed to a polymer based on polyvinyl esters while Group II is directed to an initiator system.

A telephone call was made to Joseph S. Ostroff (Registration No. 39,321) on June 11, 2008 to request an oral election to the above restriction requirement, but did

not result in an election being made. Applicants' representative told the examiner that Mr. Ostroff is no longer with the firm.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
